

Dear Valued Customer:

We are pleased to announce that Central Jersey Septic has merged its operations with Russell Reid Waste Hauling and Disposal Inc., a United Site Services company. We are happy to welcome you as a new customer of Russell Reid!

Starting on January 1st, 2019, Central Jersey Septic will combine its operations with Russell Reid, operating out of our facilities in Jackson, NJ and Keasbey, NJ. Russell Reid has been providing wastewater management services to Commercial, Municipal, Industrial and Residential customers since 1943. We service the entire State of New Jersey, the greater New York region, Eastern Pennsylvania and Northern Delaware from six (6) strategic service centers.

Due to continuing volatility in the energy commodities market for transportation fuel, and the increased costs associated with local, state and federal regulatory compliance, Russell Reid invoices contain an Energy and Regulatory Compliance Fee (ERCF). The fee is comprised of two parts – a variable portion linked to East Coast U.S. On-Highway Diesel Fuel price and a fixed 3.0% cost recovery fee for regulatory compliance. The combination of both fees are calculated as a percentage of the total customer invoice. For more information, please visit our web site at www.russellreid.com/ercf.

Russell Reid strives each day to provide the highest level of customer satisfaction and we are confident that we will exceed your expectations. If you have any questions, concerns or comments, please feel free to contact the Russell Reid Customer Care Team at (800) 356-4468 or via email at customercare@russellreid.com.

You can also visit our website at www.russellreid.com for product information or to submit service inquiries or billing questions.

Thanks for your cooperation during this transition! We are looking forward to gaining your trust and confidence in the months and years to come.

Sincerely,

Gary Weiner
Tri-State Region Vice President
